It's Not Just a Trip – It's an Investment in your Spiritual Journey!

My first visit to Israel in 1988 as part of a contextual study program profoundly changed my life. As a result, I never read the Bible the same way again and never taught the Scriptures the same way again. My spiritual time line now has two large spikes in it: before and after Jesus, and before and after Israel. Because of that impact, I relish taking people to Israel, but not in the ways trips to Israel are usually done.

Not all birds are robins. Not all flowers are roses. And not all trips to Israel are the same! That's why PBT partners with Christian Travel Study Programs (CTSP) to offer what we feel is the best possible Holy Land experience. We realize that most of you will only get to Israel once. So we want that to be the best possible experience.

Some of the distinctive aspects of our “*Life and Land of Jesus*” contextual immersion trips include:

An integrated, thematic, contextual focus with a devotional emphasis. It's a learning experience, not a tourist trip.

Visiting Israel in early Spring often offers ideal conditions in the Eastern Mediterranean. Temperatures are usually in the 60's and 70's depending on the elevation. Everything is green from the winter rains and the air quality is excellent, all of which makes for pleasant touring and great photography.

A team approach with three teachers: yours truly, Dr. Randall Smith of CTSP, and Shlomo Ben Asher our favorite Israeli guide (raised on a kibbutz) who plays a recorder, helps us understand contemporary Israel and personally escorts us through the Yad Vashem (Holocaust Memorial Museum) showing us where many of his family died in Eastern Europe.

We've customized this program to visit not only the usual sites, e.g. Bethlehem, Nazareth, Capernaum, but other less visited sites as well, e.g. Chorazin, Har Bental, Arbel Cliffs, Gamla.

An ideal trip to Israel is 15% visiting the sites and 85% learning about the sites together with the motifs and themes that “connect the dots” of the sites. We teach with an integrated focus on the historical, cultural, geographic and literary context of passages and their sites in such a way that deals not only with the facts, but with their purpose and meaning. That means we engage each site not only from an informational perspective, but from a devotional and transformational perspective as well.

I would like to think that our team-teaching, thematic based approach to encountering the context of the Bible is without peer as a learning and spiritual formation experience. Consider joining us for this life-changing trip. It will truly be one of the best “investments” you will ever make in your spiritual journey.
